Safe Patient Handling and Mobility Awareness GooseChase Scavenger Hunt Instructions

To create a GooseChase safe patient handling and mobility Scavenger Hunt game, you will need to create an account at www.goosechase.com. Participants will need to download the GooseChase App. Game Creator will need to determine how to categorize teams (department versus individuals). Please note there is a free subscription that includes up to max of 3 teams in Team mode with only one live game at a time. You can share your games with others to make people co-managers of your game with the ability to edit. Creator sets start and end time for completion of missions.

Participants/ Teams will be expected to complete a series of missions or tasks. These missions or task should be related to safe patient handling and need to be assigned a points value. Feel free to use and individualize any of the missions I've created below for my facility. Participants should indicate name and unit/team with each photo/video submission. The scavenger hunt photo/video submissions should only include equipment and staff not patients.

Staff/Team who have the most points and completed missions by deadline will be declared as winner after answers are verified. This game is not only fun but reinforces safe patient handling and mobility education.

Mission	Description	Points
Buddy	Find your favorite person to do lateral transfers with. Upload the photo	300
Team Member	Take a Picture of One of the SPHM Mobility Team Members on your campus	300
Magic Number	Upload photo of SPHM Consult Phone Number	400
Name that Device	Take a picture of a device that can be used for lateral transfer or repositioning in bed	400
Simon Says	Upload video of proper way to lift equipment from the ground	400
Injury	Take a photo of a hospital staff whose job title has most injuries when mobilizing patients	500
Stand by Me	Upload Demo of proper way for staff to walk with patient with right side weakness. Patient will be played by a staff member	500
Riddle me This	Find the mobility device that does not require a battery to operate and can be used to transport patients to bathroom	600
Magic Number 3	Upload video of staff member reciting the 3 ways to contact Safe Patient Handling Department	750
Representative	Find a person on your unit that is interested in representing your unit at the Safe Patient Handling Campus Meeting as a member. Upload their photo with name and Unit Number	1000
